

Helm has been selected to work with LABC through the LABC Partner Authority Scheme.

Helm Com Limited is now registered with the scheme which means that all local authorities in England & Wales will accept the decisions of your chosen Partner Authority.

This means Helm will get a consistent interpretation of the Building Regulations on all Helm projects, a single point of contact, less paperwork, fewer queries and streamlined invoicing.

There are other benefits too:

- Helm are authorised to use the LABC 'Partner' logo on any literature or web pages, so that other professionals will recognise that Helm are using the LABC Partner streamlined approach.
- Helm are permitted to access restricted areas of the LABC website to view technical guidelines and updates on the interpretation of the Building Regulations.
- As an LABC Partner, Helm have preferential access to essential training and industry related seminars.

LABC Training covers general knowledge, CPD for professionals, update training on new or changed Building Regulations and topical issues.

Helm also has access to in-house training on Building Control topics.

- Subscription to "SiteLines" magazine, the quarterly magazine that focuses on projects demonstrating best practice, technical or design innovation.

* As a Partner member of the LABC, Helm projects qualify for entry to the LABC Built in Quality Awards at local, regional and national level. These awards ensure that quality work gets the recognition it deserves.
